## iD Inspiration 55-70<sup>PLUS</sup>

In retail, hospitality and work environments, it is key to create welcoming and trendy spaces that build your brand image and define great customer experience. iD Inspiration 55-70 brings design a step forward with new colours and formats.

Today with 'PLUS', you can go even further by adding another dimension to your flooring, enhancing it with textures that bestow a look and feel resembling to mistake with the real thing. iD Inspiration 55-70<sup>PLUS</sup> is perfectly suited to commercial environments with moderate to high traffic.

Alpine Oak Grey- 24303059

# iD Inspiration 55-70<sup>PLUS</sup>

The evolution of iD Inspiration 55-70 continues with exciting new additions that will undoubtedly give the collection added depth. 4 patterns and 22 different colours have been created with the embossing in register technology. This technique engraves effects onto planks and tiles to reproduce unique flooring that are confusingly similar to real wood or stone. You'll be amazed at how the surface structure reproduces the original patterns to the perfection.

## 9 FORMATS

- 16,66 x 100 cm
- 12,5 x 122 cm
- 20 x 122 cm
- 25 x 122 cm
- 25 x 150 cm

# Caring for people and the planet

At Tarkett, we strive to support both our professional clients and consumers in creating healthy, beautiful and sustainable living spaces. Working with industry partners, we're bringing our best thinking and efforts toward making a positive impact on people and the planet.

## Designing for life

We design our flooring solutions for life, thereby contributing to people's well-being and good health as well as preserving natural resources.

iD Inspiration 55-70<sup>PLUS</sup> has been developed to ensure:

### Good indoor air quality

Through low levels of total volatile organic compounds (TVOCs) – TVOCs ≤ 10 µg/m<sup>3</sup>, compliant to EU standard EN-ISO 16000

### Healthy spaces thanks to 100% phthalate-free product

We have been proactive in seeking alternatives to phthalates as they have been the subject of scientific debate about their potential impact on human health. Since 2010, we have developed the use of a phthalate-free plasticizer technology for our vinyl floors which is approved for food containers and toys for young children.

## Closing the loop

We work toward closing the loop, as we actively participate in the development of a circular economy, in which resources are responsibly stewarded, recycled and re-used.

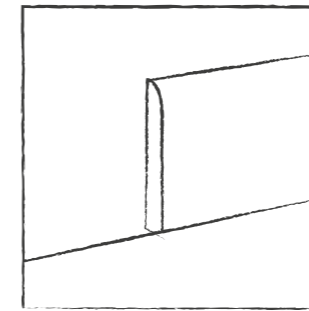

## Driving collaboration

We aim at driving collaboration with our customers, suppliers and industry partners as we believe in a collaborative approach to respond to global challenges.

**We are committed to Doing Good, Together.**
